Four good notices.

**Norway and Vicinity.**  
A lodge of Good Templars is soon to be organized here.  
The first field strawberries of the season were picked last week.  
C. M. Daley, esq., of Buckfield, was in town Saturday.  
Charles A. Smith took his span of horses to Boston and sold them for \$600.  
W. S. Abbott's little boy came near being run over by a "drunk" on Saturday.  
Rev. W. W. Hooper has been attending the Universalist State Convention at Dexter during the week.  
We understand the boats in Pennessawasse Lake are all engaged for the first day of July.  
People do say the Great Forepaugh Circus was immensely successful, especially the street parade.  
The abundant rains have brought out the blackberry blossoms in profusion. Berries of all kinds will no doubt be plenty.  
We were shown by Mrs. Dr. Jones a blossom of the "Tussock" variety, which is one of the most beautiful of all the cactus family.  
The street show Saturday evening drew a large crowd. The performance on the trapeze and with the globets of water was good.  
Jerry, the trotter has been heard from again. No change in his record. We shall look for him back to Norway in a few days.  
While out riding the other day we came across Calvin with a racker. He says there is not a horse in town which has any business with it on the track.  
The Glen House was formerly opened for the season, on Wednesday of last week. The annual field raising of the Glen House Club took place the next day.  
The Second Advents have engaged Grange Hall to hold meetings in one Sunday in each month. The first meeting will be the 3d Sunday in July, forenoon and afternoon. Preaching by Mrs. M. K. Kilburn of Bridgton.  
John Henry Millett is one of the best farmers in town. He has a large stock of cattle, a flock of 45 or 50 sheep, and about the same number of lambs. He lately sold a large lot of wood and timber which is being cut off by a crew of Frenchmen.  
Columbus Hubbardson has a farm of 110 acres. The soil is good. Mr. Hubbardson is a sheep raiser. His flock is not so large as some but it is a very excellent one. He has more lambs than sheep. His sheep net him \$35 a piece.  
Rev. Ira G. Sprague was in town Monday. He was in good health and says he has been all the time leaving Norway, notwithstanding it has been reported here that he was very sick and not expected to live.  
N. W. Millett has a pair of matched Durham calves just weaned, which girl over four feet. He has refused \$55 for them. Mr. Millett keeps a large stock of cattle and sheep, and his farm cuts about 60 tons of hay.  
Charles F. Millett lost a fine good farm and a large stock of cattle and sheep. His flock of sheep numbers about fifty with over forty lambs. Evidently Mr. Millett and his neighbors think it is profitable to raise sheep.  
Abner Jackson has the largest farm in town, which cuts about 100 tons of hay. He is a sheep and cattle raiser, and is also interested in raising horses. He has two black stallions of the Sheridan blood which he values high. Mr. Jackson has raised a number of good horses which have brought him remunerative prices.  
The summer school in Dist. No. 10 is taught by Miss Annie F. Hayden of the graduating class of this year. There are about 20 scholars in the school. Their age in this school which was never in better condition than now. Miss Hayden's many friends will be much pleased to know that she is doing so well.  
We publish this week some notes of our farmers, which we think may be of interest to many of our readers. We shall be glad to have notes from the farmers at any time, giving such items of their experimenting in the different branches of agriculture. Success in all business depends largely on the success of the agriculturists.  
The Universalist State Convention at Dexter elected the following officers for the ensuing year: President, Hon. A. Cushman; Vice Pres., Hon. Chas. Forbes; Sec., Rev. H. C. Munson; Treas., Hon. Richard Dresser; Preacher of Occasional Sermon, Rev. H. S. Whitman. Resolutions adopted for the revival of capital punishment, in favor of earnest temperance work and on the memory of Hon. L. H. Hutchison deceased were adopted by the convention.  
For any and all who wish to reach all the benefits of a college education, and have not the time and means to obtain it in the regular way, the Home College affords an opportunity by which the object may be reached with a little exertion and time and with small expense. A society called the C. L. S. Co. of the above named college has been organized in this village, which meets at the vestry of the Congregational church every Friday evening. All interested are invited to attend.

Grange meeting next Saturday.  
John Jackson is canvassing the town for fruit trees.  
The curbing is being set in front of Norway Hall building.  
Clipper Seythes at 65 cts., warranted, at Mason Brothers.  
John F. Horne has moved to Auburn, where he will manufacture shoe heels.  
If any one wants to know how to grow cucumbers let him examine Dr. Pike's garden.  
"The Zephyr" is the most practical and durable "Summer Corset" ever produced. For sale at Plumley's.  
Miss Inez O'Drion who is attending Smith College at Northampton, Mass., came on a visit to her sister, Mrs. Sargent.  
C. F. Lord says there hasn't been anything equal to "Paw's" street parade since he can remember.  
The school in Dist. No. 4 closed last week. It was taught by Miss Kate Hobbs of this town. We hear that Miss Hobbs gave good satisfaction.  
A number of the old students of Hebron Academy living here will attend the graduating exercises and reunion at that place on Friday.  
We received a pleasant call from Col. D. White of Buckfield, Wednesday. The Col. is nearly 75 years old, but is looking remarkably well for a man of his age.  
The Mountainers say that "Mrs. Gorham" will celebrate on the 4th and 5th the "little Gorham's" will be greatly pleased. Score one for the old lady Gorham.  
George A. Cole is full of business at his carding mill. Wool is sent to his mill from Island Pond to Fryburg. It is brought in on the cars, stages and private teams.  
S. D. Andrews and N. A. Traflet have purchased a large wood lot of Cyrus Haskell and the estate of E. C. Andrews, for about eighteen hundred dollars. Corrected from last week.  
In lower Fryburg there are 27 scholars. When the census was taken last spring there were only 14. The larger part of them are primary scholars.  
A petition is in circulation among the members of the Bar, for the appointment of Judge Walton as Chief Justice. It is being generally signed. "We second the motion."  
A boat house is being built by Mr. Gibbs for S. D. Andrews and Dr. Jones, which makes the fourth in the group at the outlet of the Lake. Some dozen or more boats are anchored in and around them.  
At a regular meeting of Norway Lodge No. 16 I. O. O. F., held on Tuesday evening, the following officers were elected for the current term: N. G., J. W. Crommett; V. G., A. B. Richardson; R. S., A. L. K. Pike; Treas., J. A. Brown.  
The can makers are busily engaged at the Winslow Corn Packing shop, making cans for this season's packings. Four can makers are at work and three helpers. They are to make 325,000 cans for corn alone, which will take five hundred boxes of the plate of 112 sheets to the box. Other cans of various sizes will be made for packing apples and other fruit.  
Geo. A. Cole wishes to say to all who have wool carding to be done, that he is better prepared to do good work this season, than he was last year.  
All persons having packages of cotton batting at his mill are requested to call and get the same, as he needs the room it occupies for wool. He solicits patronage and guarantees satisfaction.  
We are informed by the Committee on the G. A. R. quilt that they are still lacking about 200 names to make up the desired number, 1000. Whoever wants their names printed on the quilt, can have it done by handing in the name with 10 cents to Mrs. E. H. Brown, chairman of the committee, or any other member of the committee or member of the G. A. R.  
James Bennett of this town is one of the oldest citizen farmers and remarkable smart for his age—78 years. He has 2 acres of corn, 15 acres potatoes and 12 acres wheat under cultivation. Milks 4 cows, making 25 lbs of butter per week, keeps a dozen sheep, all his land is under the plow, cuts 25 to 30 tons of hay, and does nearly all the work himself except in haying.  
The school meeting last Saturday in Dist. No. 7 was adjourned without day, not effecting any of the objects for which the meeting was called. There were three plans presented for changes in the academy building but the S. S. Committee did not approve of only one of them, and that one the district did not approve. No doubt the district is ready and willing to make all the necessary changes for the accommodation of the schools, but they are not willing to spend extravagant sums of money only to gratify the whims of a few. With no benefit to the general good of the schools.  
There was a large attendance at the temperance meeting last Sunday afternoon. Speeches were made by Mr. President, J. A. Brown, Rev. W. H. Hooper, David Knapp, A. E. Chase, James Grant and others. Miss Lillie Ames read a selected piece appropriate for the occasion and Carrie Farrow and Annie F. Hayden sang "Don't drink any more to-night." With much satisfaction to the audience. The club go to the chapel North Norway next Sunday, at 1 o'clock, P. M., to attend a temperance meeting there. There will be no temperance meeting here next Sunday.  
The special train run from here to Lewiston Tuesday evening, to take passengers to the Great Forepaugh Circus, was successful in every particular. One hundred and twenty-five persons came from Norway and South Paris, in all of which appeared as though they enjoyed both the ride and the show. Many pleasing incidents were noticed on the train, which to mention would occupy too much space. About \$40 were realized as net profit. Much credit is due to Mr. Hotchkiss, who had charge of the train, in his management to prevent the occurrence of any thing to mar the enjoyments of the occasion.  
Reports from our exchanges show that in all parts of the State the hay crop will be very large. It is maturing well and with good weather for first-class hay will be put into

quantities. CHA
